## Free Seminar Offering Valuable Legal Advice For Contractors

I have been a construction attorney for 16 years and **I have powerful information that will recession-proof your business by increasing efficiency and profits.** At some point, everyone has to fight to get paid on a job. Because you never know which job it will be or when, it's important to have mechanic's liens expertly filed and your

paperwork in order. The way you draft contracts and change orders, as well as keep records and correspondence, could mean the difference between winning and losing your case. If your backup is organized, I'm more likely to be able to settle and get you paid quickly, saving you money. **Now, more than ever, you need to be aggressive about protecting yourself and**

**getting paid for the work you have done.**

At this seminar, you will have the opportunity to ask questions about construction law, including individual matters. As always, I am also happy to meet with you privately to discuss your cases. **I hope you will take advantage of this opportunity** and I look forward to seeing you on December 4th.

Friday/12.4.08  
8-9:30 pm  
434 Broadway  
Suite 900  
NYC

### Learn about:

- **Mechanic's liens: how fast will you get paid after filing?**
